
December 05, 2015 Saturday

KEVIN PICKED HER UP APPROX. 10 AM FOR VISITATION. KEVIN SET ME A PIC OF A BLANKET FOLDED UP ON THE FLOOR NEXT TO HIS BED IN HIS STUDIO APARTMENT AND SAID THAT WAS MADELINE'S BEDROOM.

(It used to bother me but no one else seems to care as much as I do) He told me he was going to be with her all evening besides when he had to do a show around 5 pm. He denied me rights to baby sit then too, when I was available and I had offered. He said his parents had taken her and she fell asleep in the car and slept the whole time while at their house. Kevin then took her to his house, they stayed the night there. as far as I know.

December 06, 2015 Sunday

KEVIN HAD PLANS IN CHICAGO; HE MIGHT HAVE LEFT HER AT HIS PARENTS WHILE HE WENT TO CHICAGO DURING HIS VISITATION; KEVIN CHANGED PLANS LAST MINUTE

I Kevin had told me about a week prior that this day he was not free to see Madeline as he had plans in Chicago to see friends. Last minute, he changed plans and said he was taking Madeline today. He didn't specify whether or not he was still going to Chicago and leaving her at his parents or not though, which was a common occurrence of Kevin since Madeline was born to do things like that. Leaving her at his parents while he went to Chicago, or out of town, etc. (not even valuing his time with her.)

. I talked to him a little about how I was concerned she was coming back hungry and sent him some links to explain infant health and nutrition. He only gives her water when she's with him and no milk because Kevin doesn't support cow milk drinking. He is borderline vegan and literally a starving artist. I explained that while she is a growing baby, milk is very important due to calcium for bone growth. If she doesn't eat well with him, at least he can compensate with milk, instead of water. I wondered if maybe him not feeding her properly is why she was getting sick with him, so that is why I searched that possibility and send him education about proper nutrition for her; perhaps that's why she is getting sick with him because she is operating on no calories or energy and she is just being drained and therefore getting sick. Kevin in my experience is an anorexic. he sometimes before a show will go all day with drinking one tea, and one beer. (starving himself) and then smoking weed and vomiting in the evening. He cannot take care of himself properly, therefore I don't think he is taking good care of Madeline nutritionally either.

This evening when she got back Madeline had a slice, that looked like from a razor blade on her finger.

December 11, 2015 Friday.

**DCFS CASE WORKER LISA TRAVIER HANDED THE INVESTIGATION OVER TO AN
INCOMPETENT INTACT CASE WORKER THOROUGH YSB, JUDY ALLEN**

Lisa, the DCFS case worker, never viewed any of my video evidence of Madeline abuse and trauma signs after visitation with her father even though I told Lisa I had video and picture evidence. After I talked with Judy a bit more, I found out she was not qualified to look at the abuse symptoms, or evidence and her job was to refer me to someone that could. Basically a huge waste of time, and she couldn't even help. Plus, DCFS didn't investigate thoroughly. I went ahead and made an apt. with YSB

December 12, 2015 Monday

APPOINTMENT WITH JUDY THE INTACT CASE WORKER

Judy Allen came to my house at 9:00 am. She was very unprofessional, wearing trashy clothes, didn't wear her glasses, and brought no paper work.

I attempted to show her the evidence and notes I had written regarding Madeline, but she informed me she couldn't see since she didn't have her glasses. (This is a joke of professional quality service, at the expense of a potentially abused 3 yr. old child.)

Judy was shaky, and rambling. She appeared under nourished and under fed. None the less completely unprofessional. I did not feel safe by her domineer, and she seemed very under educated. She was also making me feel threatened. She continued to talk over me, interrupt me and act a bit hostile. She continued to wave her hand, and get in my face, telling me to let my assumptions and stuff go, and that it could not be going on. She was making statements like "Ya' know what I mean." While bobbing her head. I felt completely let down by the service I was getting. I felt very frustrated why she would be dismissing everything and trying to tell me to let it go, while saying it might not be happening, while I had evidence in front of her that she refused to look at because she didn't have her glasses. This was completely ridiculous. She kept talking a mile a minute, and was not listening to anything that I had to say. She continued to tell me to relax, and that she assumes Kevin would not be doing this to his child based on the fact that she, as a person would not do that to her child. I then began to question her credentials.

.....

December 14, 2015 Wednesday

INTACT CASE WORKER JUDY ALLEN'S FIRST VISIT WITH MADELINE, TICKLED HER RIGHT BELOW THE BELLY BUTTON, AND REFUSES TO INVESTGATE KEVIN

Judy Allen came to my house for her first visit with Madeline.

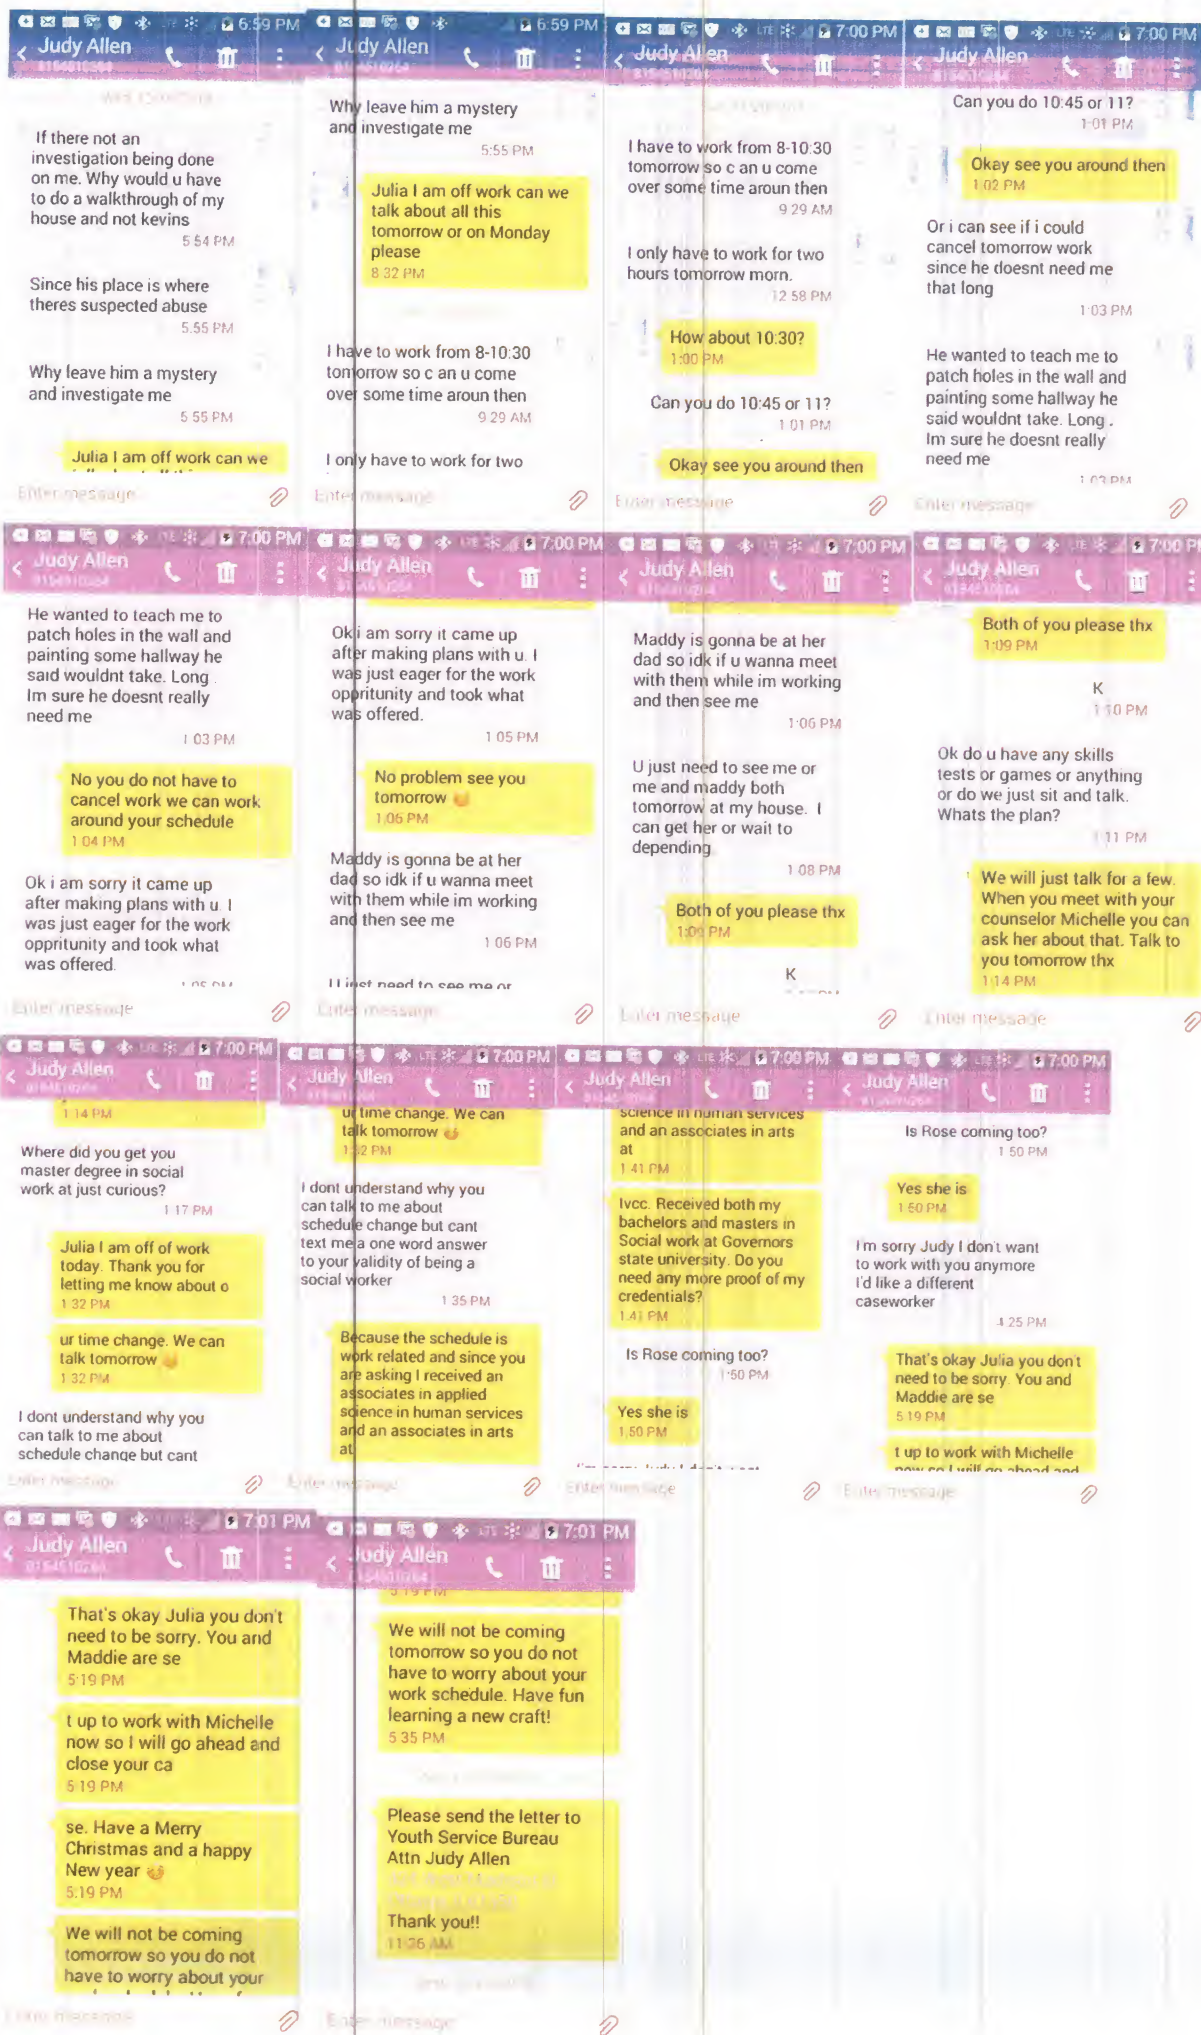

She acted so ghetto and unprofessional that she didn't even seem capable of having a mature adult conversation. She made me feel very ill at ease in my own home, which shocked me since one would assume she would be more professional since she works for a government agency. She was rambling, and over talking me with an even louder voice, when I tried to speak. She was waving her hands in my face and telling me abuse might not be going on, based on the fact that she wouldn't molest her own kids, so Kevin probably isn't either... I really began to question her credentials. She also kept telling me to relax, when I was relaxed. She seemed very over the top, invasive, and uneducated. She kept interrupting me, and didn't seem willing to listen to what I had to say. I didn't feel she could help or even seriously wanted to, or acknowledged the seriousness of the matter.

When she first saw Madeline, meeting her for the first time, Judy reached out and tickled Madeline below the bellow button. This made me uncomfortable due to the mater of the need for services being sexual abuse and I cannot think a reasonable professional would think that doing that to a kid they first meet was appropriate. I told her not to tickle her and explained my reasoning. I don't want Madeline getting comfortable with complete strangers being allowed to touch or tickle her, as a self-protective, boundary mechanism since not all strangers are safe. Although Judy was the case worker, to Madeline, she was a brand new, complete stranger she didn't even know and Madeline shouldn't be taught to allow strangers hands on her since she is too young to differentiate good from bad touch. Judy said she understood. At that point I was completely hesitant about the whole thing and couldn't wait for her to leave. I intended to call and complain to her supervisor.

Judy continued to explain that she needed to do a walkthrough of my house, and asked me if my house was a 2 bedroom. I told her I was uncomfortable with that, and that I felt I have been investigated enough. I explained that Kevin should be investigated, since all along he been the alleged perpetrator, and Madeline shows signs after being with him, in his studio apartment, and he has not yet been investigated. I explained, if they could just go to his studio apartment, that they would see concern, since it is so small, no room for Maddy, and they would probably find drugs. Kevin doesn't seem stable just by the way he keeps his place so messy that there is no place to walk or set anything's. Kevin owns a book on how to beat paranoia also. I explained I felt a mental evaluation would seem fit since he has mental illness, namely schizophrenia that runs in his family. Judy told me she could investigate him but that there was no need to at this time since Madeline lived with me.

After the tickling incident, I had I requested a new case worker, when the YSB director informed me that Judy was the only intact case worker for this county. I had made an apt with a counselor at YSB, which Judy stated that was all she was there to help with (and investigate me) so that since I had already made an apt, she could resign from the case. But after she did, and I called complaining of her unprofessionalism, YSB would not follow through with me despite several calls, personal visits to the office and voicemails from me personally trying to get an apt set up. It

seemed nearly impossible. YSB was now not helping either.

Judy Allen

If there not an investigation being done on me. Why would u have to do a walkthrough of my house and not kevins

Since his place is where theres suspected abuse

Why leave him a mystery and investigate me

Julia I am off work can we

December 18, 2015 Friday

VISITATION AND THE NEGATIVE IMPACT IT HAD ON MADELINE AFTER COURTS ORDERED UNSUPERVISED VISITS TO CONTINUE ON NOV, 13TH 2015.

Upon return from visitation, Madeline displayed trauma. She was crying hysterically, depressed, whiny, regressive thumb sucking, sad, and disinterested in normal activities.

12/19/2015

Child acts in a sexually inappropriate and adult like manner after being with father

Kevin had visitation this day. He only filled a portion of it and brought Madeline home to me this evening.

When Madeline returned home she was acting overly sexual: After arriving home from dad, Madeline appeared to gather sexual behavior from the father. She was continuously trying to poke, and tickle my crotch as if this was done to her on the visit, or she was made to do that to someone (*I have witnessed her dad allow Maddy to do this to him and also seen Madeline began touching her dad's crotch immediately upon seeing him as if something sexual was always happening between the two and she was trained.*)

The child was looking to mom for approval while trying to touch her crotch as she may have during the visit with dad. While trying to touch my crotch, Madeline was also looking to me for approval as if getting approval for doing that with dad (*who commonly lets her do that*) and she acquired the learned behavior seeking praise while with her dad.

Madeline doesn't act in these sexual ways when she doesn't have to go on visitation with her dad

Madeline proceeding the behavior despite being told no.

I kept telling Madeline no, but she persisted to try to invade my genital area.

The child tried to sneak the crotch touching behavior by:

Soon after being told no, and to stop the crotch touching, she began pretending to walk by me and then quickly she would jab her hand at my crotch, hitting it so fast- in a bullyish manner so as to accomplish the touch without me being able to stop her. This act isn't normal for children for Madeline's age to do on their own, and is mostly likely derived from what she is taught or done to her on the visit. The behavior also isn't common from Madeline and only happens after she's with her dad, but will completely subside if the visitations do.

Quickly accomplishing touching a crotch: is not something a kid would know how to do, unless taught, or done or shown to them by a supervising adult.

December 19, 2015 Saturday

MADELINE ACTING OUT WITH ODD AND AGGRESSIVE BEHAVIORS

- a) Kevin was scheduled visitation today but couldn't use all of it because of work.
- b) Upon Madeline's return tonight, Madeline was acting in sexual ways.
- c) I was sitting in a chair when she repeatedly came up to me and tried to touch my genitals.
- d) After being told not to, Madeline tried sneaking the behavior of touching my crotch.
- e) I think someone was doing this to her on visitation and that's why she was acting this way. When I used to deny Kevin unsupervised visitations, Madeline never did these things.

12/22/15

Madeline makes statements about father, and his mother touching her genitals, and the child is also showing signs of possible abuse.

Kevin had visitation today and returned Madeline to me this evening.

When Madeline returned this evening she was repeating the phrase "Stop Hitting yourself"

I think that is a phrase used among bullies and abusers who make some one hit themselves with their own hand, and mockingly say, stop hitting yourself.

I asked Madeline who taught her that, and she said, "Grandma hit me.

She also said that grandma hit her crotch.

Later, off the recording I asked Madeline how grandma did that, and Madeline said grandma touched her crotch with her mouth. I asked her to repeat that to make sure I was hearing correct, and Madeline stated, Daddy also did that and touched her crotch with his finger.

She is making all kinds of statements that the father and possible his mother are touching her inappropriately.

1/14/2016

The child's mental, emotional, physical, and moral health endangered. Father lets minor child grope his genitals, and doesn't make her stop. Father makes excuses why it's okay for the child to be able to stroke his private parts.

Mother had school the next day and offered the father to watch the child overnight, since they were in agreement the father would babysit the child during the mother's school day until the father went to work. The mom offered overnight, so the father wouldn't have to get up very early in the morning since the mom left early in the morning for school.

Around 11 pm, the mother checked up on the minor child who was at the father house. Since the father stated that the child was sleeping in bed next to him and making excuses to the mom, why the child couldn't sleep in her own bed at his house. When the mother showed up at the father's, the father seemed on drugs, sitting in bed next to the child.

The child was in a soggy wet diaper, begging for food and water. The father stated his apartment was too small he had nowhere else to sit, although the child had a mat on the floor in the corner, surrounded by a sheet hanging by tacks from the ceiling and a cardboard box which the father considered to be the child's room. There was no walking room around the mat, the box was immediately lining the mat. The father stated the reason why the child couldn't sleep there was that the sheet was blocking the view of the movie. The mom asked dad to move the sheet and let the child sleep in her own bed. The father refused. The mom told him she wanted the child in her own bed and told him it was easy to move the sheet since it was not hard work but the father refused. The mother stated if the child was to stay there she was sleeping in her own bed, and she moved the sheet herself so the child can have her own space.

The child was in a wet diaper, full and soggy and also begging for food and water. The mom asked the father why he wasn't caring for the child, and he stated it was getting late. The mom reminded the father not to neglect the child, and asked him to get her a bottle while she changed the child's diaper, since the father was blatantly incapable of doing for his own reasons. The father refused again to get the child milk, and the child continued to ask for something to drink and eat. The mom explained to the father the importance of nourishing the growing child with food and drink, but the father refused to get the child something to eat and drink. The mom cut up watermelon, fed the child and made a bottle that she placed in the fridge and showed the child where it was, to help herself whenever she thirsty since the father was refusing to care for her properly. The father was angry although the mom was just trying to care for the child and offer help to both the father and child.

The father's place, a studio apartment was crammed, full of piles of stuff, and very messy, unable to walk through, (no foot room) The mom offered to clean the place. The father tripped over piles of his belongings in the kitchen and almost fell to the ground. The mom did tidy up and explained her desire to help make a better environment for Madeline and that she didn't mind helping. The father has always had a problem organizing and his house was always messy. Since he has a small studio apartment, that is not okay to have it crammed and not enough space while the child is there. The mom had offered several other times previously to help clean the father's place so it was safer for when the child was there but the father never let her help. The father had piles of stuff and stacks of music gear, such as sitar, guitar, speakers, etc.. The father's residence acts as a better storage room, than home for a child.

The father sat in a corner and cried, stating the mother was never going to see him again. He acted unstable.

The child came up to the father and started rubbing his penis. The father simply looked at the mom, and allowed the child to continue rubbing his penis. He didn't tell her no, or to stop. The mother was concerned and asked the father is this is what goes on when they are alone, since that is not normal for Madeline to do. The child cried to the mom and said, yes mama, I want to go with you, hung her head, and hid behind her mom. The mom asked why the father didn't make the child stop that behavior and the dad stated she is just a kid. The mom reminded the dad of his responsibility to teach the child right from wrong so she doesn't go up to strange adults and rub their genitals, which she had a habit of doing for probably the reason the father lets her do that. The mom made reference to teaching a dog not to pee on shoes, by telling it no, to train it to not do wrong and told him it's much more important to train a child than a dog. At that point the mom thought about quitting school since she didn't feel the father was reasonable enough to babysit the child in the ROFR act. The mother asked the father to please train the child properly and teach her right from wrong by telling her to not touch his crotch If she touched his crotch again. The mom once again tried to give the father another change, because legally, what choice does she have in that she already told the judge of the sexual inappropriateness of the father with the child. The father seemed clueless and withdrawn still. The mom fixed the child's bed and showed the father how to get her to sleep in her own bed. When the child lay in the bed at the father, she screamed bloody murder, NO NO NO, until she fell asleep. She never usually does that and I think it was an indicator of a bad memory in that bed.

January 14, 2016 Tuesday

- **Madeline touches Kevin's crotch and Kevin doesn't make her stop. Suspicious circumstances, Kevin seem incapable to take proper care of her and doesn't appear to have Madeline's best interests.**

1. I had school at McCormack Paralegal College in Chicago the next morning.
2. I tried letting Madeline stay the night at her dad's so I didn't have to drop her off super early since I was leaving around 5:30 in the morning.
3. Around 11 pm I checked up on Madeline who was at her father's studio apartment. Kevin said he was letting Madeline sleep in his bed next to him. I told him I felt this was inappropriate and wanted her to sleep in her own bed. All he had for a bed for her was a baby mattress on the floor with a cardboard box and sheet from the ceiling as a wall, which he thought would suffice.
4. I didn't feel comfortable with Madeline sleeping in his bed.
5. When I got there, Madeline was on his bed next to him. Kevin's apartment was so small and messy that he claimed he had nowhere else to sit besides right next to her on the bed. He was acting frustrated.
6. I felt sympathy for him and offered my cleaning services. He angrily yelled and shouted at me in front of Madeline to get out. I just wanted to figure things out before I left. He got out his phone and started recording me and I asked him not to. I told him I would just take Madeline with me if this was how he was going to act. Madeline was sitting in a full diaper, begging for food and water.
7. I asked Kevin to address that or let me help show him how to take care of her and get her to sleep.
8. Kevin was saying she couldn't sleep in her own bed because he refused to move the sheet hanging from the ceiling so she could see the movie from her bed. I offered to move it, which only involved barely lifting a finger, since he seemed incapable and full of excuses. He freaked out on me. I was only trying to help for the best interest of Madeline.
9. Kevin seemed completely incapable of taking care of her by what I saw when I went to his house. He couldn't even walk because it was so messy. Kevin was so agitated and out of it that he curled up in a ball on the kitchen chair and cried while telling me I was never going to see him again.
10. While Kevin was sitting in the chair, Madeline came up to him, and began stroking his penis through his pants. Kevin just looked at me and started watching Madeline do that to him, without making her stop, without saying a word or doing anything about it. I told him I thought I was inappropriate to let him do that and asked if this is what goes on while she is over here. Madeline said yes Momma, you're right. While nodding her head and looking ashamed. She came and hid behind me and told me she wanted to come with me.
11. I asked Kevin to please not let her touch him there, so she has protective mechanisms to not touch others there since that would be unsafe. He shrugged his shoulders, without responding and never moved or stopped her from rubbing him.
12. I have witnessed this behavior with Madeline and Kevin since Madeline was young. It used to happen immediately when Kevin came to pick Madeline up for visitation. She would walk up to him and start touching his genitals, immediately which is odd and makes me think something else is going on, sexual wise, when they are alone because babies act how they are taught, and seeing him must remind her of that.
13. I explained it's inappropriate for him to allow her to do that, and that it's his responsibility to raise her right. I expressed how I felt he would reprimand a dog for chewing on a shoe and told him he also needs to train out daughter in the same way to curb unsavory behaviors.
14. I asked Kevin to promise me he would tell Madeline no if she tried to do that again, and make her stop. Kevin remained silent and staring off.
15. I begged him to cooperate since I was involved with school, otherwise I would have to drop out due to him being unsavory care giver and having ROFR He agreed, and for school's sake, I stayed the night there to show Kevin how to get Madeline to sleep in her own bed. When I laid her down in her box bed at his house, she screamed No, No, No, in a traumatized, and scared way until she fell asleep. I am highly concerned that sexual abuse is a factor in all of this.

January 15, 2016 Friday

1. Friday evening, Kevin brought Madeline back to my house since he couldn't fulfill all of that visitation day.
2. While Kevin was standing in my living room, he began to hold Madeline, and turn to the side. I saw his hand moving, so leaned where I could view what was happening. Then, I saw Kevin, moving his hand back and forth, making his stiff fingers, poke Madeline's genitals, in a stimulating fashion. He was repeating the motion quickly as if what seemed to be trying to do it as much as possible, one more time, before he left Madeline for the rest of that day.
3. I told Kevin, that I saw him doing that to her. I also said how Maddy had been coming home after being with him fingertip shaped red dots, and bruise marks on and around her groin area, that I believed was caused by him poking/ rubbing her there with his fingers, and through her clothes at least in my presence)
4. I told him that he should stop it or else I would be able to gain evidence since he was leaving marks on her.
5. Kevin didn't respond to me, and simply walked out the door.
6. I didn't believe there was enough physical evidence for a doctor's exam, since it was through the clothes and leaving bruises around the vagina, not in or on the vagina, and doctors most often times need hefty forensic evidence such as severe bleeding or bruising from rape like incidents, not minor poking. But it is still considered sexual abuse)
7. Later this evening at home, while watching a movie, Madeline was taking my hands and trying to make it touch her crotch, and looking to me as if she was seeking approval.

January 16, 2016 Saturday

Kevin not following the JPA

Kevin suggesting, I may not let him take Madeline for her birthday after I witnessed him sexually molesting our daughter's crotch, and it was leaving bruises and blisters around her genital area.

1. Kevin was supposed to have visitation this Saturday, but did not fulfill it.
2. Saturday night, Kevin called to see if I was going to let Madeline go with him after I witnessed him sexually touching her genitals. Kevin stated, "Are we still cool, because I wasn't sure if you were still going to let Madeline come with me, after what happened yesterday." (Friday, January 15th)

I saw him molest Madeline through her clothes, in my living room.

January 15, 2016 Friday

1. Friday evening, Kevin brought Madeline back to my house since he couldn't fulfill all of that visitation day.
2. While Kevin was standing in my living room, he began to hold Madeline, and turn to the side. I saw his hand moving, so leaned where I could view what was happening. Then, I saw Kevin, moving his hand back and forth, making his stiff fingers, poke Madeline's genitals, in a stimulating fashion. He was repeating the motion quickly as if what seemed to be trying to do it as much as possible, one more time, before he left Madeline for the rest of that day.

But it is still considered sexual abuse)
7. Later this evening at home, while watching a movie, Madeline was taking my hands and trying to make it touch her crotch, and looking to me as if she was seeking approval.

01/26/16

CHILD HAS FOUL SMELLING GENITALS WITH UNUSUAL SUBSTANCE AS WELL AS SEXUAL BEHAVIORS AFTER 4 HOUR VISITATION

1. Kev had Madeline from 10 – 2:45.
2. Saw Kevin touching Madeline when putting her in the car, she was saying stop it stop it.
3. She had an unusual white and foul smelling odor on her upon return from father, it smelled like genital fluids.
4. Her behavior was sexual after the visit too. She was
 - a. Pushing toy giraffes to press on her crotch
 - b. Humping the dog
 - c. She wouldn't stop the sexual acts despite being told not to.
 - d. Mother had to sit her on her lap and make hold her hands, to stop the child from touching herself in the genitals since she wouldn't stop after being told verbally. The sexual behavior from the child was excessive and consumed her focus, diverting it from otherwise normal, innocent activities and focuses of the child.

February 1, 2016 Sunday

KEVIN DIDN'T FULFILL SCHEDULED VISITATION, AND FAILED TO COMMUNICATE ANY CHANGE OF PLAN, ETC.

MADELINE DISPLAYED SEXUAL BEHAVIOR FOLLOWING VISITATION DAYS PRIOR, AND WAS TRYING TO MASTURBATE AT BED TIME WHILE SAYING DADDY, DADDY'S HOUSE AND POINTING AT HER CROTCH.

- a) Kevin was scheduled visitation this day but Kevin did not fulfill visitation today. He made zero effort to communicate. He didn't contact me at all to discuss cancellation, or inform me of any schedule change of his.
- b) Kevin had visitation with Madeline the days before though, and tonight in bed Madeline was acting in an unusually sexual way.
- c) She was trying to masturbate, touch and rub herself. Normally she would not do that. I was trying to read her a book, and she kept trying to touch herself.
- d) I told Madeline we don't do that here. She pointed at her crotch, saying "Daddy, Daddy's house". As if making a connection/ reference to daddy, and his house (something happens there) relating to her touching herself, and pointing at her crotch. I asked if her dad touches her down there, and she said yes.

02/18/16

Kevin denies Julia the right of first refusal

When Kevin went to work, he didn't let Julia watch the child, and left the child at his parents' house instead. The JPA states that each parent shall allow the other parent the first opportunity to serve as babysitter

FATHER CONTEMPT- NOT FOLLOWING R.O.F.R. (Right of First Refusal)

Kevin had visitation, picks child up at 10, am.

He had a performance scheduled at the Vets home at 4 pm, and promised to return child to me so I can baby sit.

He called me around 3 pm, an hour before his show, stating he was walking out of the door at his parents.

He told me he wasn't going to bring Madeline back since he had to stop by the music suite to pick up his music gear on his way to the show, although there was plenty of time to bring child with.

I suspected he was hiding something and that's why he didn't want me to see her.

I offered to pick Maddy up from his parents the music suite when he stopped, or the vets home.

He had time to go back inside and grab her but he refused, and didn't follow the ROFR on our visitation agreement.

He also stated he worked until around 8 pm, after his show, and left the child in his mother's care all night.

March 16, 2016

I OFFERED KEVIN RIGHT OF REFUSAL TO BABY SIT MADELINE THIS DAY.

KEVIN CAN'T UNDERSTAND MADELINE'S SPEECH OR DOESN'T TRY TO (SO HE JUST IGNORES HER)

- a) I had a meeting with my boss last minute to discuss work related details. I called Kevin to offer him the right of first refusal to baby sit Madeline. (ROFR in our JPA entered on 4/24/14)
- b) Kevin chose to watch Madeline and instructed me to drop Maddy off to him at Westclocks on route six in Peru when I had to go to the meeting. Kevin didn't specify that he was working. I figured he wasn't since he decided to babysit.
- c) At 5:50 I dropped Madeline off to Kevin at westclocks. I then saw he was in the middle of teaching a young student a guitar lesson. I set Madeline up with drawing, drink, crackers and told her to be good while daddy taught his lesson, and that I'd be back asap.
- d) The meeting took longer than expected, and though I said I'd be back soon, I was able to come back and get Madeline in an hour, immediately after the meeting was done.
- e) A 6:50 I pulled in the Westclocks Parking lot to pick Maddy up. Kevin and Madeline were standing outside in the grass area. They came to me, I got Madeline ready to get in my car. Kevin thanked me for bringing her and said it was good seeing her. Madeline tried talking to her dad. Kevin just walked away and ignored her, while Madeline kept trying to talk. I asked Kevin if he was going to respond to her since she was trying to talk to him. Kevin said he has a hard time understanding what she was saying and asked me to translate. I told him what she said and mentioned that it seemed he wasn't even trying to hear her, and if he did, like me, it is very easy to understand her and I think she talks pretty clear. then we left.

March 17, 2016 Thursday

**KEVIN NOT LETTING MADELINE USE THE RESTROOM FREQUENTLY ENOUGH,
NEGLECTING TO CARE**

Kevin had Madeline for 7.5 hours today, fulfilling visitation from 8 am – 3:30 pm. Kevin had work around 4 pm and going later into the evening. He is also self-employed and created his own schedule on visitation days, etc.

At 3:30 pm, I met Kevin at music suite 408 to get Madeline. She was with him only 7.5 hours this day, Kevin told me she only went to the bathroom once, all day (almost 8 hours)

That is too long to hold urine for most adults, none the less a 3-year-old potty training girl. I have told Kevin many times, she needs to go more than that and what times in particular to offer her a chance to use the restroom as she is not yet independent and relies on caregivers to help and encourage her to use the restroom.

I told Kevin, that It's common for Madeline to use the restroom 1 -2 times, every 1 – 2 hours when she is with me.

The average expected for a toddler to use the restroom, 1-2 times, every hour or so, (not 1 time in 7.5 hrs.)

I reminded Kevin again after he told me of this, and also told him that if she holds it that long she can get an infection. I told him its abnormal for her to hold it that long and that she goes with me about once or twice every hour or two. I offer her far more frequent chances to go than once in 8 hours and any reasonable, suitable caregiver would offer more than once in 8 hours also.

Kevin listed excuses why Madeline didn't use the restroom all but once. He said, she didn't have to go, and that she refused to go.

When I explained to him how she needs us to make her try at this point in potty training, and be consistent with times to have her try such as after naps, before car rides, ever hour or so, **Kevin expressed that he "Ran out of time" that day to care, for our daughter** and allow her times to try to go.

It is not that hard, and if he was unable due to being so busy, to care for her, then he shouldn't take her due to it endangering her health and wellbeing since he is running out of time to care for her in 7.5 hours of visitation time. God forbid she was with that man any longer.

1. *Madeline might be trying to protect herself from going to the bathroom and risking being touched by her dad when with him.*

2. *Or Kevin is ignorant and neglectful.*

Neither is conducive to Madeline physical health, wellness and best interests. Holding the bladder too long can cause infection and need treatment for. With proper care, this risk could be avoided.

I know how Kevin is, and he usually rushes around careless to other needs and will not allow Madeline opportunities to use the restroom even after hours have passed and before going somewhere. He just makes her hold it. For example, Kevin Maddy and I hiked at starved rock for 3 hours. Madeline drank lots of water too. It was time to leave, and I wanted to let Maddie use the restroom first. Kevin got angry since he just wanted us to leave. Kevin completely ignored Madeline need to use the restroom and If I was not there he probably wouldn't have given her a chance to. He seemed to think she doesn't deserve to go to the restroom like a human being.

03/26/2016

Madeline acts out sexually and is vomiting due to going on visitation

Madeline was at her dad's the night before.

This morning Madeline was immediately sick and puking when she woke up. She begged to stay home with me instead of go back to her dad's for visitation. Kevin was scheduled to have her this visitation, Thursday, Friday, Saturday and Sunday. (Four days in a row)

a. **Supportive information:** *Madeline only comes back sick after being with her dad. She hasn't even gotten sick one time from being with me. When she didn't see her dad, she never got sick, only when she sees him, does Madeline continually come home ill. The visitation with her father is causing this and is therefore a risk to Madeline's physical health. It is not normal for children to constantly get sick after being with someone, parent or not. Children should be protected from such situation whenever possible. Madeline's rights should be more important than her father's here, since she is the one suffering. I have read many times, that sickness like Madeline displays after visitation with her dad is signs of sexual abuse. There are many other signs of sexual abuse that Madeline also displays from after being with her dad.*

b.

- 2.) Also today Madeline attempted to rub my dad's crotch several times. This is not normal behavior of a three-year-old. I have told her not to do this. Sadly: I have witnessed Kevin allow Madeline to touch his crotch without stopping, and Madeline doing so upon first seeing her father. Therefore, her father is teaching her this behavior is acceptable when in deed it's embarrassing and harmful to her safety if she thinks it's okay to go up and do that to men, because she does that to daddy. That can put her in harmful situations
- 3.) Later Kevin stopped by to see Madeline, and even though she was sick, forced her to go to his family's Easter. He also kept her from me both days. Today, when she could have stayed home and rest, and tomorrow, the whole day for Easter, when I had family waiting to see Madeline, Kevin didn't let her come to see me or my family at all for Easter,

03/27/2016

Kevin withheld Madeline from time spent with my family on easter. Madeline shows disparaging and adult like sexual behavior alongside admittances of sexual abuse done to her by Kevin after returning home from visitation.

Kevin had visitation this day, as well as Saturday Friday and Thursday.

Today was Easter, and my family wanted to see Madeline, but Kevin had her. Kevin also had Madeline the night prior He had family Easter, the night prior, and this day. He withheld Madeline from experience family Easter with my daily, and kept her for two with his, while she was sick for one of them. He then returned Madeline late this evening around 6 pm. Long beyond any time could be spent with my family.

After Madeline returned from her father's care, Madeline displayed sexual abuse signs. Soon after her return, she played with the toy doctor kit I got her one of her Easter presents. Madeline stuck the thermometer in my mouth and said "How's my cock." Then later this, she shoved toys down her throat making herself gag almost like deepthroatng, several times and almost puking after. Then later on, Madeline was touching, and arousing her genitals very adult like for a three-year-old little girl. She normally doesn't do that, but only sometimes after going with her father. I asked Madeline why she was doing that, and she said her daddy touched her crotch and frozen underwear, a time other than when going to the bathroom (she knows the difference between the two and would refer to bathroom touch as wiping pee or poop) I tried to get a video of this and did the best I could but I am no professional is asking the right questions, and I may have asked too many, but can you blame me? I think any parent would be a little suspicious of their three-year-old coming back saying and doing these inertly sexual things.

-Also seen here is a picture of the toys Madeline got from her father from Easter; he sent me a picture of three, sent her back with two, so he kept one. He commonly gets her stick toys I believe he pokes her with purpose to train her for sexual behavior. he got her a hat, which she squeezed this tube to make the ears bounce, training her hands for position for sexual behavior (touching him)

March 27, 2016
Sunday, Easter Sunday

1. Kevin refused to allow me any time with Madeline, and kept her from me and my family during Easter eve and Easter, and he had taken her to eat both Saturday and Sunday, having two eaters with Madeline and leaving me with zero

2. Kevin kept Madeline overnight Saturday. Madeline returned to me around 6 pm this evening and upon return was acting out sexually and making statements like "how's my cock", and that daddy touches her crotch. This behavior was not present before having gone with Kevin.

What happened:

3. Shortly after being home, Madeline was playing with that toy and pretending to be my doctor. She checked my heart and said, "Heart sounds good".

4. Madeline stuck the toy thermometer in my mouth and said "How's my cock?" I turned my audio recorder on my phone to try to capture this but she would not repeat when I asked her what did she just say.

5. Madeline inserted the stick like toys from the doctor's kit; in her mouth and then her throat, repeatedly. She was shoving them in her mouth so deep she was making herself gag and almost vomit. This is not a normal behavior of hers.

6. Madeline was rubbing on her genitals very maturely, and seemed to be trying to stick two of her fingers into her hole through the outside of her pants. This is a very adult type of manual stimulation that doesn't seem normal for a child to know unless otherwise taught by someone with more sexual knowledge. This is beyond normal exploration for a child her age, (this was at 7:30 pm approximately).

7. Madeline said her dad touched her crotch, and her frozen (cartoon themed) underwear.

8. She acted out on a doll by poking and rubbing its crotch area, and said that her daddy did this to her.

9. I was told by Peru P.D. Investigators to try to capture any behavior or admittances of above said behavior from Madeline on camera or audio as a way to have more tangible evidence rather than my word alone. I am taking their advice and trying to get these situations on camera or audio since no one will listen to me.

10. I am caught off guard and totally unprepared when these events will take place or when she will make statements. Sometimes I am trying to live a normal life and do not always have a camera in my hand to capture whenever she might act out or say something.

11. When she makes statements I get worried and am unsure what to say, ask or how to handle the situation, but felt it necessary to try and to have the moment recorded like the Investigators instructed me, even if I seem upset or unsure when asking Madeline questions about what she is telling me.

→ 12. I reported this said matter to the police, and two officers came to my house this evening and witnessed two of the video recording (Police Reports - Peru)

13. Instructed me to write out the incident on a police report and hand in the videos as evidence.

14. I talked to an attorney and was instructed not to hand in the evidence to the police on my own, and to have it handled by an experienced attorney. The attorney who instructed me was another attorney I interviewed due to my current attorney suggested I do not make statements to the police in hopes that Kevin will drop his petitions.

15. Therefore, I hesitated and did not hand the evidence into the police and continued to search for another attorney to hire for better guidance as for what to do.

16. Recently, I handed in this report to the police and they did nothing about it.

04/14/2016

Kevin made physical contact to me, which was in a threatening and intimidating nature, and Madeline acts scared and traumatized from the presence of her father.

Me and Madeline had plans to go to Boggio's farm in Granville, IL for my birthday and Kevin was going to meet us. Later that day we found out Boggio's was closed, but we still wanted to meet up so Madeline could enjoy the outdoors, and since Kevin was already planning to go out of his way to meet us. We decided to meet at starved rock near the bottom entrance, and Madeline fell asleep on the way there.

I waited in my car for a bit, while talking to Kevin and waiting for Madeline to awaken. When Kevin stood outside Madeline's car door/ window, she began to cry and talk in her sleep saying "No! Stop it! Don't touch me!" She then opened her eyes and began to act extremely frightened when she saw her dad standing there. She started screaming bloody murder, and reaching for me, begging me to hold her right away. This concerned me and I mentioned to Kevin I was just going to go home since this was abnormal for Madeline to act this distraught. She continued crying without ceasing and proceeding to have breathing problems due to crying and hyperventilating so much. I mentioned leaving again. Madeline never acts this upset when she is with me, so this was highly unusual for me to see her like this. It appeared she was acting clearly scared of her father. I recorded this. Kevin insisted we stay, and get out and play in hopes Madeline would stop crying. We got out, and played for a bit. When it got dark out, we all headed back to our parked cars to leave. First we got Madeline in her car door, and Kevin was standing outside the door. Right after I got her in her car seat, Kevin proceeded to push me right in front of her. His reasoning was that it was time to leave. I told him I didn't need to be pushed, and I could leave on my own. I mentioned how he was standing outside her door still, talking to her, so I was watching, and having a moment with Madeline outside her window too and would leave when he did. Later Kevin kind of admitting to the said shove, calling it a gentle nudge, but not denying it later over phone text messages.

Then what do you call putting your hand on my shoulder and pushing me telling me to go... 11:41 PM

That wasn't a push. There is a difference between a push and a gentle nudge like ok it's time to go 11:41 PM

You dont say thats called pushing? then i guess idk what pushing is any more. 11:41 PM

04/15/2016

Father had child inappropriately dressed during visitation.

The father had the child for visitation this day, and the mother sent the child in the dress seen in this picture, but with a white shirt underneath. When the mother picked up the child, she was wearing that dress with the undershirt off, and her nipples hanging out. It's inappropriate for the father to have the child dressed in a revealing fashion.

04/21/2016

BEFORE VISITATION

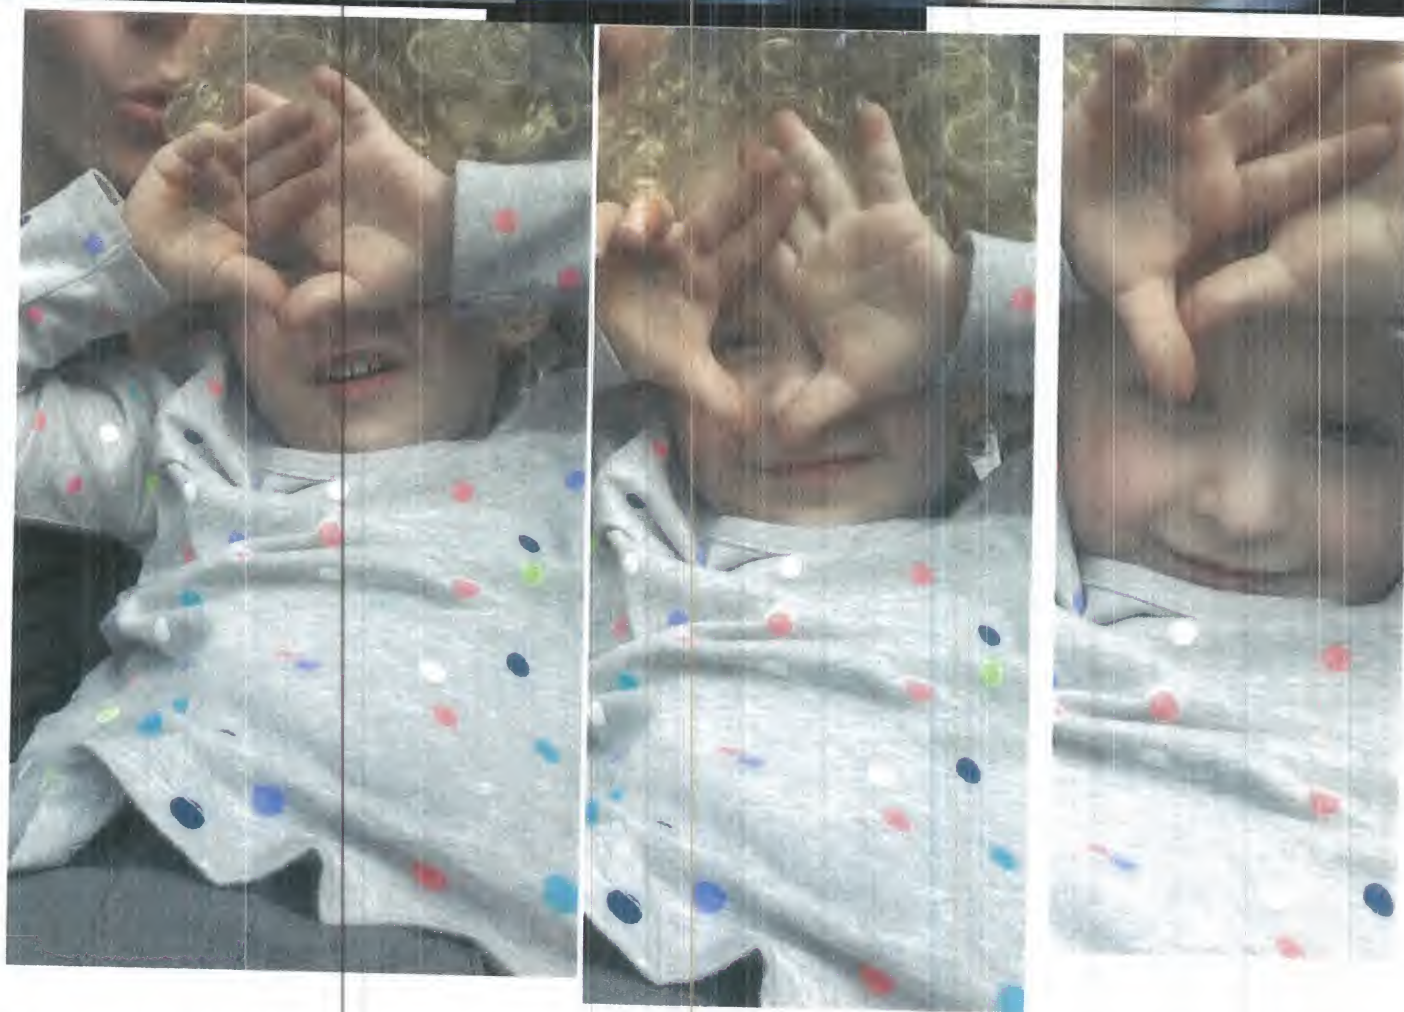

AFTER VISITATION

04/22/2016

When returned from the visitation, the once happy go lucky, full of colored child had a very different change in appearance and behavior. The child at return, was weak, lethargic, unable to stand, and wanting to lay down or sit. The child had a hard time walking. Child stated the dad and his parents touched her "crotch" during the visit. The child also told. Julia that she vomited twice, at the grandparents' house. The child appeared drugged, with a pale face and pinpoint eyes, plus her behavior and statements about vomiting could indicate possible intoxication. Julia's friend mentioned it could be drugging, to do sexual abuse, or one or the other. Julia's friend has experience with family members sexually abusing and said something like sometimes they use drugs to inhibit the victims.

As you can see the [Above] pictures, the child is making hand symbols known to belong to the Illuminati, and the Satanic culture. The father has made statements and shows some proof of being involved in these said cultures. Whether or not why the child makes these hand signs after being with the dad, and no other times is of any significance, can be cause for speculation

You can observe the child's apparent weakness as she lay her whole body weight against the mom.

April 29, 2016 Friday

KEVIN HAD VISITATION UNTIL 6. AROUND SIX HE DROPPED MADELINE OFF TO ME AT MY HOUSE. AFTER RETURNING, MADELINE SHOWED SEXUALLY CONCERNING AND PREOCCUPIED BEHAVIORS THAT AREN'T NORMAL FOR HER USUALLY, AND SEEMED EXCESSIVE.

- 1) Madeline acted scared of the bed. She also was uncomfortable being held or touched/ comforted
- 2) She was humping excessively throughout the night and she was continually humping in the middle of normal activities where she otherwise normally wouldn't hump.
- 3) she was humping the bed and moaning loudly then trying to lie and hide the behavior.

- 1) **Event #1**-First, after Madeline got to my place, and her dad left, I brought her to her room to see the books, decorations and treats I had lined up on her bed for her as a surprise when she got home. I expected her to be excited, but oddly, when she saw the bed, she retracted away in fear in what seemed because of the sight of the bed (uncomfortable about bed due to being at dad's previously) I tried to console her and tried to set her on my lap and cradle my arms around her to make her feel safe, but she pushed my arms away. It seemed she didn't want to be touched. She was uncomfortable with touch or me getting my hands close to her when I went to cradle her, which is unlike her (I think this has something due to being at dad's prior) See Note:

NOTE: When I went to cradle Madeline, my hands were near her chest area like a hug, but not touching. She immediately pushed my hands away. A few incidents in the past that support the theory that her discomfort of being touched are related to being with her dad are these. On a few occasions I witnessed Kevin rubbing, and stimulating, like tickling Madeline nipples. I mentioned this was inappropriate, but Madeline went with him for visitation anyways. After that, when Madeline was getting ready to go back on visitation with him, in the morning, she began to talk to herself and shouting NO, Don't touch my boobies, they are my boobies, not yours! I feel that she was saying this due to her father, touching her breasts, and preparing herself for what she might say to him. I was not involved in this conversation it happened out of nowhere, all on her own. Madeline never even knew the word boobies until after a visit with her dad. She had periodically come back rubbing on hers and trying to rub on others breast and also with knowledge of the words boobs, and touching and talking about her boobs, after being with her dad. I never taught her this. And she never said that until after being with him.

- 2) **Event #2**- Back to this night's happenings, After the discomfort with being touched, Madeline proceeded into the night, humping multiple chairs and attempting to hump my leg, I counted about 8 time in 45 minutes she attempted to hump things. We were playing with pets, and toys, and I was trying to keep her occupied. She doesn't normally have a problem with staying focused, or humping things so much When I denied Kevin visitation, these behaviors stopped all together. I think the humping is excessive especially for a three-year-old and considering its becoming a distraction and has been occurring since she was 6 months old after being with the father, and 6 months old is too early for age appropriate humping, therefore I don't think what is happening now is age appropriate and is more of a continuous behaviors present after visitation with her father.
- 3) **Event #3**: After the humping and closer to bed time Madeline and I were in her room drawing pictures. Madeline asked me to get her a slice of pizza from the kitchen which was cooked and setting out on the counter for us to eat that night. Immediately as I went to grab the pizza, I heard Madeline moaning loudly from her room, so I turned right back around to see what she could possibly be doing since I expected her to continue coloring the picture she was busy working on. When I walked back, it was clear Madeline thought I wasn't going to see, but she was furiously humping the bed, loudly, and wildly moving about while doing so. When Madeline snapped out of it and saw me there, she jumped up on the bed, laid out and put her hands behind her head. She acted like she wasn't doing anything at all. And then she said, "Oh I was just getting a drink of water." In a low voice, unlike hers. So apparently now my child is trying to act this way when she thinks I'm not looking and then lying that she was doing something else even though I saw what she was doing. This is pretty concerning to me, and I don't feel like I should have to deal with my three-year-old acting out sexually unlike her normal self, and then lying about it. I am not the type of parent who wants my daughter to feel okay with lying. I am an honest person and teach her to be honest, and be an honest person and also to be honest with me at all times. I am trying to raise her right and teach her to be an all around good, and moral human being with integrity, dignity, and respect, not deviant sexual behaviors and being a liar. I feel like she is way too young to be acting like this. I don't feel that any parent should have these types of things come up with their three-year-old boy or girl. Any logical parent would constitute the visit and overnight at the other house as a cause to this new behavior which isn't present unless the child goes with them, as its been noted when I denied Kevin visitation. How is any good, sane a reasonable parent to see this and brush it off like it is normal? If any person was to disregard that and not consider it a red flag, I would say they are negligent.

4) **Supporting information:**

During time Madeline had no visitation and some supervised visitation with her dad, the sexual behaviors, and physical tampering symptoms to her genitals went away completely. As soon as judge Jansz re ordered the visitation to ensue, Madeline immediately had physical symptoms, she made statements that the father touched her crotch, she became fearful, acted out sexually, touching herself and humping, she became sick, vomiting with fever, and more. None of these existed without the visitation and some of these symptoms were only after being with the father for a 3 – 8 hour span which is far too brief for such intense symptoms to develop was she being cared for or in a sane, stable, and healthy situation while on the visitation.

05/19/2016 (Thursday)

Police discretion, and Breach of Duty.

The Peru police officer is bullying the mom, and supporting the father acting against the correct court order.

The time for the father to pick up the minor child from the mother, was at 10 am as written on the JPA court order. The father showed up with police escort, a half hour early around 9:30 am to pick up the child who was still in the process of getting ready and justly had that right to.

Julia asked the father to please come back at the correct time.

Kevin was giving Julia a hard time by refusing to leave. Julia then turned to the officer that stood nearby and asked the female officer if she could have the dad come back at the correct visitation agreement pick up time. At that point the female officer, walked closer to the entrance, and onto Julia's property and began yelling at Julia incessantly. She was yelling things in a very angry hateful tone also. She was shouting things like the father always bends over backwards for Julia, and that the officer was sick of Julia. The officer became more enraged as she yelled. Julia felt threatened, not helped, by the officer's presence.

Police breach of duty

The officer was not treating Julia fairly, siding with the father to act against the visitation court order, and therefore was not acting in accordance with her duties. She disturbed the peace and caused a breach of her duty and obligation/ policy of correct professionalism and code the officers are to go by. You can see in the picture is the motto on her vehicle (to protect and serve). Julia didn't feel she was being treated respectfully on her property, and also felt she was being unfairly treated by authority and decided to call the state police for help since she didn't know who she could turn to if her own city police were being mean to her. She felt like she needed to call the police on the police, that is how threatened she felt by the officer. The state police told Julia shed have to call the mayor and that the state police couldn't get involved, although Julia did express her concerns and feelings of being threatened by the Peru police officer, to the state police. Later around 10:00, the father arrived back with the officer, complaining that he was going to keep the child all weekend, at his parents while he worked and deny Julia ROFR. The officer knew of the visitation agreement and laughed at Julia. Smiling with Kevin, the officer acted suggestively toward siding with the father, and having hatred toward the mom. She told the father to have a nice day and Julia remembers her winking at Kevin.

May 19, 2016 Thursday

POLICE INTIMIDATION AND BREACH OF DUTY;
KEVIN DENIES ME RIGHT OF FIRST REFUSAL

On this date, Kevin was scheduled to have visitation and pick Madeline up at 10 am. He showed up at my house around 9:30am, demanding to take her, while I was still in the process of getting her ready. I asked Kevin to come back at the scheduled pick up time which was 10 am. The female police officer began walking up to my house. I said "Excuse me ma'am, could you please come back in about half an hour, at the correct pick up time since Madeline is still getting ready?"

She then Yelled, incessantly, not letting me speak, waving her hands and screaming, that she has had enough of me, and that Kevin bends over backwards to my wishes etc. She did not respond in a professional manner, and seemed to neglect her duty to remain professional as she was getting aggressive in a simple response of a child custody dispute. I told her, I am sorry it is not okay for you to speak to me this way on my own property. She was angry faced and continued to yell meanly and angrily. I shut the door and called the state police due to me feeling threatened and harassed by the Peru police department. They told me to talk to the mayor about it.

When Kevin came back to get her at ten, the officer was still with him. Kevin told me he would be refusing to give me right of first refusal for the entirety of his four-day visitation weekend and that indeed he did have to work during that time. When he left, the officer smiled pretty at him, and acted super nice to him, saying have a nice day. They are being cruel to me and bullying me for no good reason, they are breaching their duty of professionalism and maintaining the peace. She was acting like someone I need to call the police on, not a police officer.

(SEE THE PROTECT AND TO SERVE SIGN ON THE POLICE CAR)

May 19, 2016 Thursday

POLICE INTIMIDATION AND BREACH OF DUTY;
KEVIN DENIES ME RIGHT OF FIRST REFUSAL

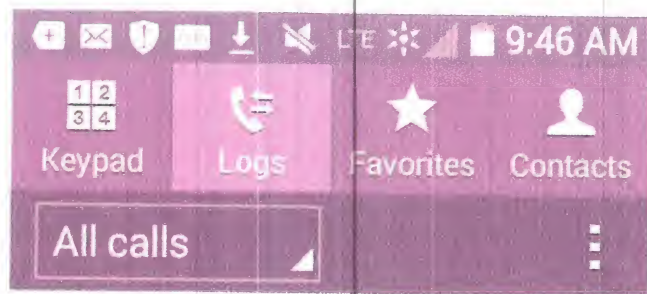

On this date, Kevin was scheduled to have visitation and pick Madeline up at 10 am. He showed up at my house around 9:30am, demanding to take her, while I was still in the process of getting her ready. I asked Kevin to come back at the scheduled pick up time which was 10 am. The female police officer began walking up to my house. I said "Excuse me ma'am, could you please come back in about half an hour, at the correct pick up time since Madeline is still getting ready?"

She then yelled, incessantly, not letting me speak, waving her hands and screaming, that she has had enough of me, and that Kevin bends over backwards to my wishes etc. She did not respond in a professional manner, and seemed to neglect her duty to remain professionalism as she was getting aggressive in a simple response of a child custody dispute. I told her, I am sorry it is not okay for you to speak to me this way on my own property. She was angry faced and continued to yell meanly and angrily. I shut the door and called the state police due to me feeling threatened and harassed by the Peru police department. They told me to talk to the mayor about it.

When Kevin came back to get her at ten, the officer was still with him. Kevin told me he would be refusing to give me right of first refusal for the entirety of his four-day visitation weekend and that indeed he did have to work during that time. When he left, the officer smiled pretty at him, and acted super nice to him, saying have a nice day. They are being cruel to me and bullying me for no good reason, they are breaching their duty of professionalism and maintain the peace. She was acting like someone I need to call the police on, not a police officer.

WHEN I CALLED THE STATE POLICE DUE
TO FEELING THREATENED AND HARASSED BY THE PERU POLICE OFFICER

May 21, 2016 Saturday

Kevin worked for 9 hours, and Left Madeline at his parents during his visitation for approximately a 9-hour work day. Kevin denied me the right of first refusal, isn't following the court order, and not in line with definitions of visitation according to law.

Kevin Had Madeline for visitation, but worked at the music suite from 10 am – 7:30 at night. He didn't have Madeline with him at work, and didn't offer me right of first refusal. I coincidentally saw him going into work at 10 am, and leaving work at 7:30 at night. I followed him inside when I saw him enter work, and proceeded to ask him where my daughter was. He refused to bring her back to me. I was giving a girlfriend a ride for job interviews and once was at 10 am at 13 donuts across the street from west clocks, where I didn't expect to see Kevin since he was supposed to have visitation this day.

Kevin makes \$30.00 an hour here, and today worked 9 hours. That is 270.00

Kevin stated in court, in order to pay minimal child support, that he makes \$250.00 a week. That is clearly not true due to him making more than that one this day alone, excluding what he gets paid for tips at night, at bars which ranges from \$150.00- \$600.00 plus, for wedding gigs, etc.

From the start, Kevin has a pattern of lying and continuously neglecting Madeline, physically, mentally, emotionally, and financially withholding resources, lying and causing me trouble and to pay more in court, causing even more suffering to Madeline.

May 23, 2016

MADELINE RETURNED FROM 4 DAY VISIT WITH FATHER, WITH A COLD CORE ON HER LIP, A WHISTLE NECKLACE THAT WAS HANGING SO IT BOUNCED ON AND HIT HER CROTCH, AND SHE WAS EXCESSIVELY MASTURBATING.

Madeline was on visitation lasting four days this weekend. She was supposed to be in his respective care, although he was working a majority of the time, and didn't allow me the right of first refusal.

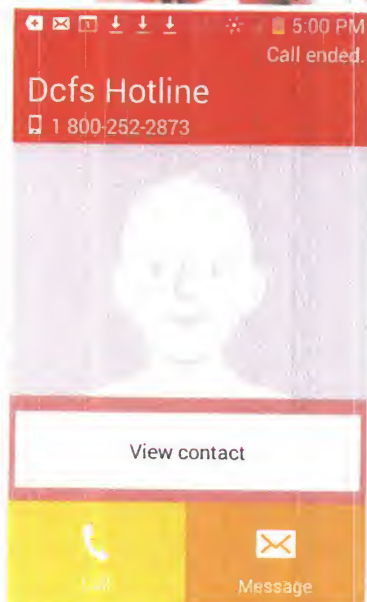

Kevin and I exchanged Madeline at the police station. When I got Madeline home, I noticed she was wearing a whistle necklace.

The whistle was hanging, and smacking her crotch as she walked. I asked her who got it for her, and she said daddy. She said daddy makes it touch her candle. I asked what a candle was, and while inside the house, she lifts up her dress and began touching the whistle to her genitals and said "See, candle." She continued to continuously rub the new toys I got her, on her crotch and proceeded to obsessively grab at, rub, and wiggle her fingers on her genitals throughout the evening. I could not make her stop. She would not. Later we went to get ice cream, and she was rubbing her crotch in front of the people at twisty free on 351 in LaSalle. After that we went to Walmart, and she did the same things in the cart. She was acting extremely sexual and humping as well.

I called DCFS after I saw all of this and the lady responded that I could be charged with falsifying reports, and read me the law about being persecuted about that.

Madeline is too young to decide whether or not she wants something constantly rubbing her crotch, and this behavior even with the whistle is invasive by the father, and an intrusion of her personal rights. Any reasonable person would see that its hitting her crotch as she walked. It seems the intention of the father is to create stimulation in this area. It is necessary to keep the minor child away from such an individual who chooses to invade and disrupt her personal rights, instead of respect them. She needs her rights and body to be respected and she is not yet old enough to protect or care for herself so she needs to be with adequate care givers, and clearly the father is not one. He is causing stimulation to her genitals and thinks its funny, and this poor child is a victim.

06/06/2016

This was after visitation. Madeline and I were at my house, and she was humping me. She said papa did this to her at grandmas and that he loves her. That is when I got my camera phone, and gave her two dolls, and asked her to show me on the dolls, exactly what she meant in order to get her statement, documented.

06/11/2016

This was my Saturday with Madeline and I took her to gymnastics at the YMCA which is scheduled on Saturday's at 9:00 am.

I invited her Kevin to come watch. He didn't show up until the end, and visited with us for about a half hour afterwards. He followed us to Dollar general because he wanted to buy Maddy a balloon.

Kevin had work this day, amounting to three shows.

1-IV cancer center in Peru,

2- love joy homestead in Princeton,

3-house party in Mendota that evening.

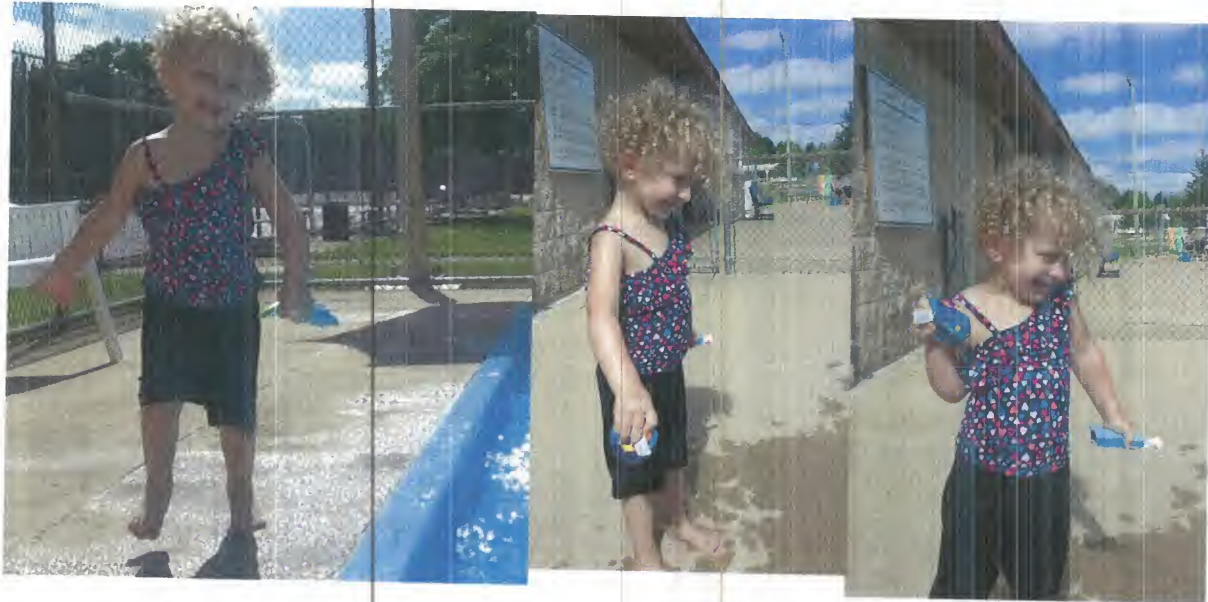

Notice the hand symbol Maddy is making

The child physical, mental, emotional, and moral safety is endangered by the visitation with her father. The mother is in reasonable fear and apprehensions for reoccurrence of harm based on evidence it more than likely will occur if she let the child go on visitation.

On 6/6/16, the child disclosed an incident of abuse. The child stated her grandfather, the father's dad, was humping her on visitation. The child acted this out on dolls on a video. The mother felt this evidence would show cause for the authorities to protect the child from enduring further abuse, but needed time to get all her documents in order. The mother felt she would be justified in denying the father visitation, once the authorities saw the sexually abusive suggestive evidence, as well as the evidence indicating sexual abuse, on many other dates. The child is in need of safety and healing.

Father's day. The mother let the father have visitation, since she still had yet to complete filing all the evidence of sexual abuse, and didn't want to get held in contempt of court. The mother was trying to be reasonable since she hadn't proved the abuse yet and didn't want to get in trouble with the law. She allowed the father visitation this day also because she felt that one day of the child being exposed to as sexually abusive situation was a lot safer than being exposed to that said situation for four days in a row which she would have been if the mom let the child go on that four-day visitation weekend, every day. The mother is still in fear and apprehension the child will endure abuse though.
